

We're taking
care farther,
by bringing
it closer.

We believe being healthy is about more than stopping the sniffles. It's about being at your best, every day – and knowing where to turn when you don't feel quite right.

That's why DIRECTV has partnered with Premise Health to create an onsite health center for you. If you're employed by DIRECTV, you're all set – just call and make an appointment.

Questions? Need to make
an appointment? Visit:

or call 256-922-7613

DIRECTV.

Premise Health™

Helping you get,
stay and be well.

We're here to change the way you experience healthcare – making it easier, more convenient and more affordable than ever. No more scrambling for an appointment when you're sick. Your onsite health center will handle it. Services at the DIRECTV Health Center are provided to you free of charge as part of your employee benefit plan.

Key services:

Monitoring: Blood Pressure, Blood
Sugar, & Weight
Lab Services
Joint, Back, & Muscle Complaints
Sore Throats, Colds, & Flu
Headaches & Earaches
Stress

Minor Gastrointestinal Complaints
Acute Asthma & Allergy Complaints
Minor Wound Care & Skin Complaints
Flu Shots
Urinary Tract Infections

Who can use the center?

All DIRECTV employees are eligible to use the Health Center beginning their first day of employment.

Getting to know you.

The cornerstone of the Premise Health experience is simple: it's all about you. Our staff is focused on your wellness. Compared to traditional community medical practices, our providers spend more time building an understanding of your health.

It's a truly different experience. It's less rushed. And it starts with having the right people to take care of you. People who will listen. People who will build a real, trusting relationship with you – leading to better care.

Better relationships for better care.

Your Premise Health center staff includes a full-time Nurse Practitioner, Registered Nurse, and Medical Assistant. Everyone on your center's team has been fully screened and selected by Premise Health for their leading-edge knowledge and skills.

The Premise Health onsite health center is not designed to replace your current doctor. It works alongside your current medical team, adding a new layer of convenience so you never miss a beat. Plus, if you ever need a referral to a specialist, we're right here for you.

Your privacy is our priority.

We take your privacy seriously. Premise Health maintains all of your records, and we follow the same state and federal laws as any healthcare organization. We can't share any information without your permission, unless it pertains directly to a workplace injury or illness.

Better health, online.

Visit <https://myhealthcenterhome.com/sites/directv> to view your Health Portal. This secure website gives you full access to your health records, visit history and test results. It's also a convenient way for you to make appointments, email providers and more. We'll be adding new features in the coming months.

Meet Premise Health.

At Premise Health, we apply our experience to create a better healthcare experience for you. To make healthcare work better, by delivering it right where you work.

And we believe that translates to helping you keep your edge in everything you do. To us, that means you're at your best – at work, at home and everywhere you go.

How do we do it? Again, it all comes down to experience. We manage more onsite health centers than anyone in our industry. So we know what it takes to help people get, stay and be well. We know how to help organizations develop innovative solutions and plans that lower costs and improve the quality of care.

Don't hesitate with your health.

Have questions? Stop by to ask them.
Want to check on a health concern? Now it's easier than ever.

Just visit <https://myhealthcenterhome.com/sites/directv> or call 256-922-7613 to learn more or make an appointment.
